## QUALITY POLICY

**At Energy Procurement Services we are committed to the wellbeing of our employees.**

**We commit ourselves to continual improvement in our performance and our policies and procedures.**

**We will implement and maintain a Quality Management System (ISO 9001:2008) that is consistent with all national and international recognized legislation and standards.**

**We will manage our contracts, employee's contracts and strive to lead in all industry practices.**

**We will set targets, and objectives to meet applicable legal and other requirements.**

**We will work with our sub-contractors, and help them develop their people through ongoing training, and development as well as setting targets for growth**

**We will insure that we will follow the fundamental human rights of all Employees, and Sub- Contractors**

**We will support the communities, in which we serve, and where ever possible, we will only employ people from the areas we operate in.**

**We will develop our Sub- Contractors, through training and skills development**

**We will build relationships, on honesty, respect, and trust**

**We will review our "Quality Policy" on a quarterly basis, insuring that, it stays relevant and meets our required goals.**
