## **RE: Referral - Energy Procurement Services (EPS)**

### **TO WHOM IT MAY CONCERN**

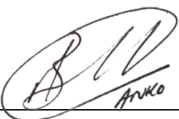

Energy Procurement Services is known to juwi as a provider of a wide variety of services and assisted us since 2016 on the Priska PV Plant and various other plants in the juwi portfolio.

Their services rendered to juwi include, but is not limited to, the following:

- Water & waste management.
- Security.
- Road maintenance.
- Module cleaning.
- O&M Personnel.

Energy Procurement Services is reliable, honest and trustworthy in all their dealings with juwi. I can therefore recommend all their services in the industry.

Andre Kok  
Deputy Operations & Maintenance Manager – SA
