Dear Mr Murray,

Re: Confirmation of Services

This letter serves as confirmation we have worked closely with Energy Procurement Services (Pty) Ltd on various solar projects in the Northern Cape and Gauteng, South Africa, supplying, servicing, and procuring products for our sites.

They have been working with juwi for the last 5 years, they are reliable, trustworthy and have a good reputation in the industry. EPS are currently working at our Prieska site in the Northern Cape performing part of the operations and maintenance services, supplying labour, electrical contracting, security and waste management.

In addition, EPS are B-BBEE compliant and have an all-woman share-holding structure.

I would have no hesitation in considering them for future business endeavours with juwi or recommend them within the Renewable Energy market.

Feel free to contact me if you require any further information.

Yours sincerely
juwi Solar ZA Construction 3 (Pty) Ltd

Andre Steffen
Head of EPC Projects - EMEA
